Infant and Child Development Program

We provide a range of services and supports to parents/guardians and their infants/children up to 5 years of age who are at risk for or are experiencing developmental delays.

This program may be suitable for you and your child if:

- You notice that your child needs more support to learn how to hold up his/her head, roll over, sit, talk, or interact with others compared to other same-age children
- You feel like you are not connected to your baby or toddler
- Your child experienced health problems prenatally, at birth, or as a very young infant
- Your child has a genetic or medical condition

Through home and community visits, our Team will work with you to ensure that you and your child receive the most suitable supports.

If you need more information or would like to book an appointment, please contact us at 519-337-3701.
